1. Summarize

➤ Summarize

Thank you for purchasing our LED wall wash LCG-003 V2 lighting. Please read these instructions carefully before begin and operate the fixtures according to these instructions to avoid any possible damages and accidents causes by misuseage.

➤ Products introduction

This LCG-003 V2 is covered by tensile aluminum, designed in a fashion of hydrodynamic form. It uses high power R,G,B 3 kinds LED. Each kind of LED can be independently dimmed. It uses power switch, performs low weight and consumption, stable capability and long life. The built-in program includes dimmer, strobe, water change, gradual change, fading and so on. International standard DMX 512 signal is requested.

➤ Packing list

- LED BAR8 V2 (LCG-003 V2) 1PC
- bracket 2 pcs
- T-shaped screw 2 pcs
- The user manual
- IR remote control
- Warranty Card

2. Safety Instructions

- Please keep this User Manual for future consultation. If you sell the unit to another user, be sure that they also receive this instruction booklet.
- Unpack and check carefully there is no transportation damage before using the fixture.
- Before operating, ensure that the voltage and frequency of power supply match the power requirements of the fixture.
- It's important to ground the yellow/green conductor to earth in order to avoid electric shock.
- Disconnect main power before servicing and maintenance.
- Use safety chain when fixing this fixture. Don't handle the fixture by taking its head only, but always by taking its base.
- Maximum ambient temperature is TA: 40°C. Don't operate it where the temperature is higher than this.
- The unit is for indoor use only. Use only in a dry location.
- Don't connect the device to any dimmer pack.
- Make sure there are no flammable materials close to the unit while operating, as it is fire hazard.
- The housing or the lenses must be replaced if they are visibly damaged
- Do not allow children to operate the unit.
- Replace fuse only with the same type.
- Never try to repair the unit by yourself. Repairs carried out by unskilled people can lead to damage or malfunction. Please contact the nearest authorized technical assistance center.
- Disconnect the mains power if the unit is not used for a long time
- Do not look directly at the Led Light beam while the unit is on
- To prevent or reduce the risk of electrical shock or fire, do not expose the fixture to rain or moisture.

3. Installation

- The unit should be mounted via its screw holes on the bracket. Always ensure that the unit is firmly fixed to avoid vibration and slipping while operating. Always ensure that the structure to which you are attaching the unit is secure and is able to support a weight of 10 times of the unit's weight. Also always use a safety cable that can hold 12 times of the weight of the unit when installing the fixture.
- The unit must be fixed by professionals. And it must be fixed at a place where is out of the touch of people and has no one pass by or under it.

4. Outside Size Picture

5. Main Function

- LEDS: 240pcs (96pcs red, 72pcs green, 72pcs blue) 10mm LEDs
- Beam angle: 25°
- Black aluminum material
- 3 pin female XLR socket and 3 pin male XLR socket
- U-Ground socket Power in & Power out
- Maximun link number: 10pcs
- LED display for easier operation.
- Built-in programs, Auto running, DMX mode, M/S, sound-active mode, static color, IR Remote
- DMX-512:30CH/25CH/25CH./24CH/18CH/12CH/9CH/4CH/4CH./3CH selectable channels
- Power consumption: 18W
- Power supply: AC100-240V 50/60Hz
- Weight: 2.6kgs
- Size: 1070*65*88mm
